

DIY WOOD CONSOLE TABLE

Project Level: Easy

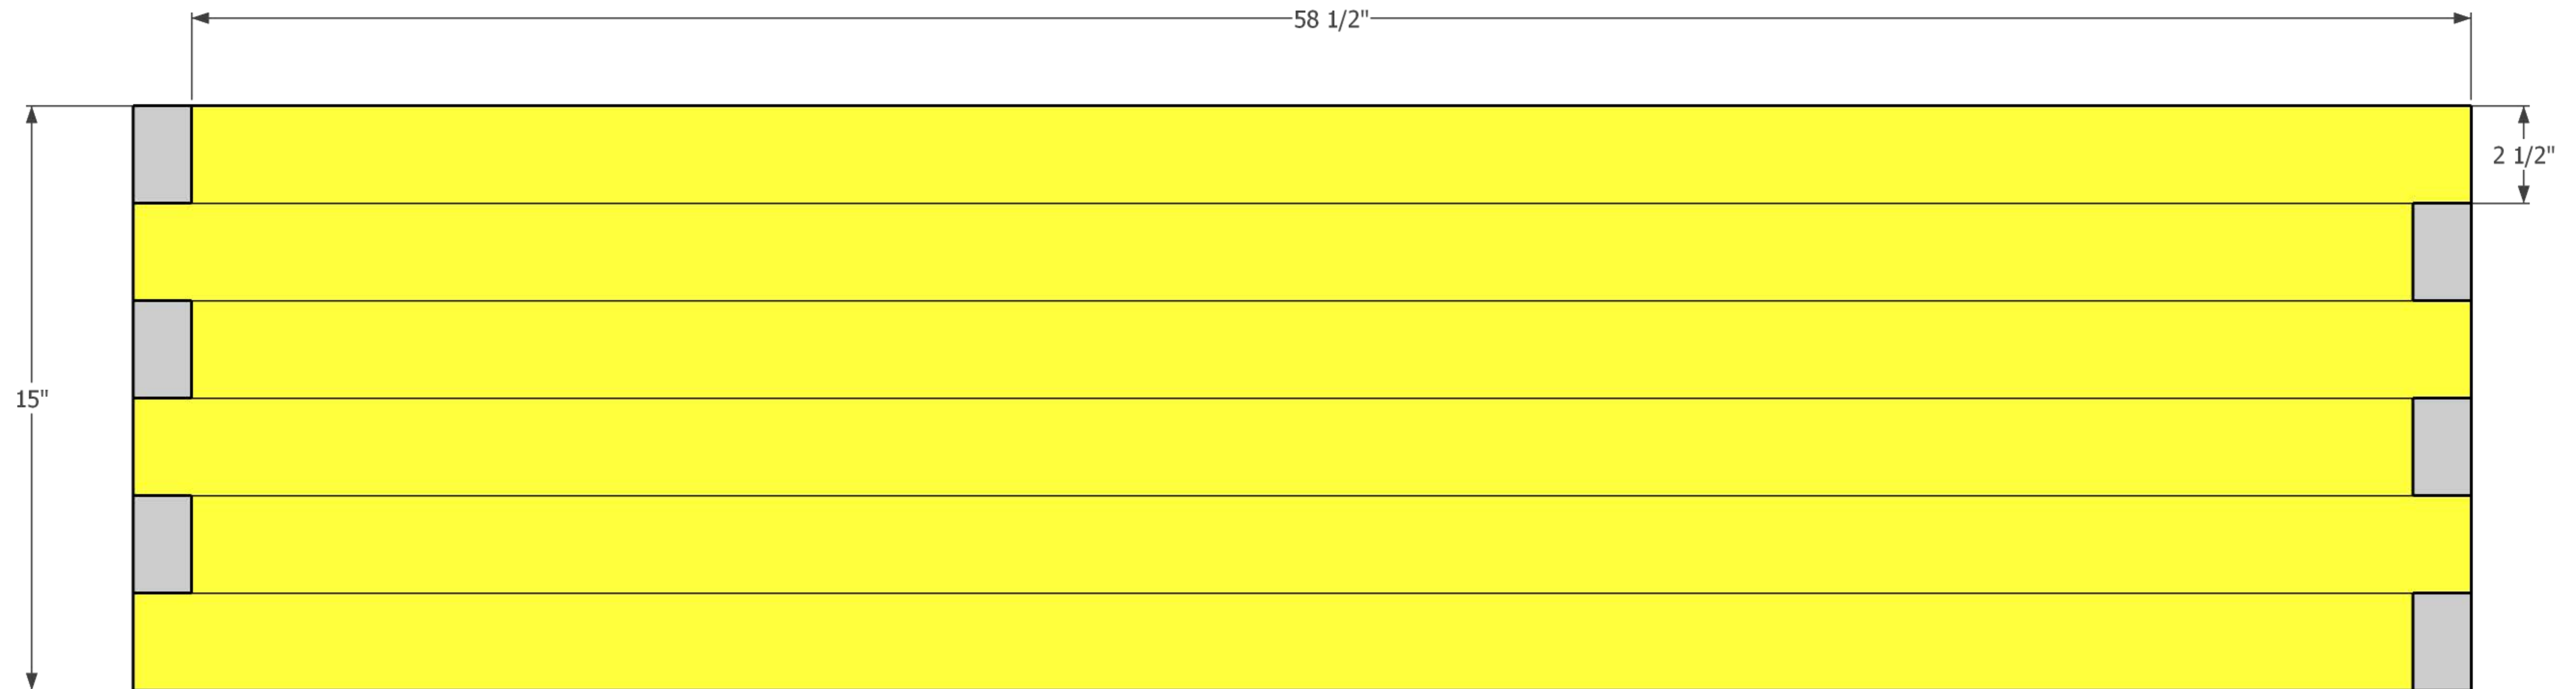

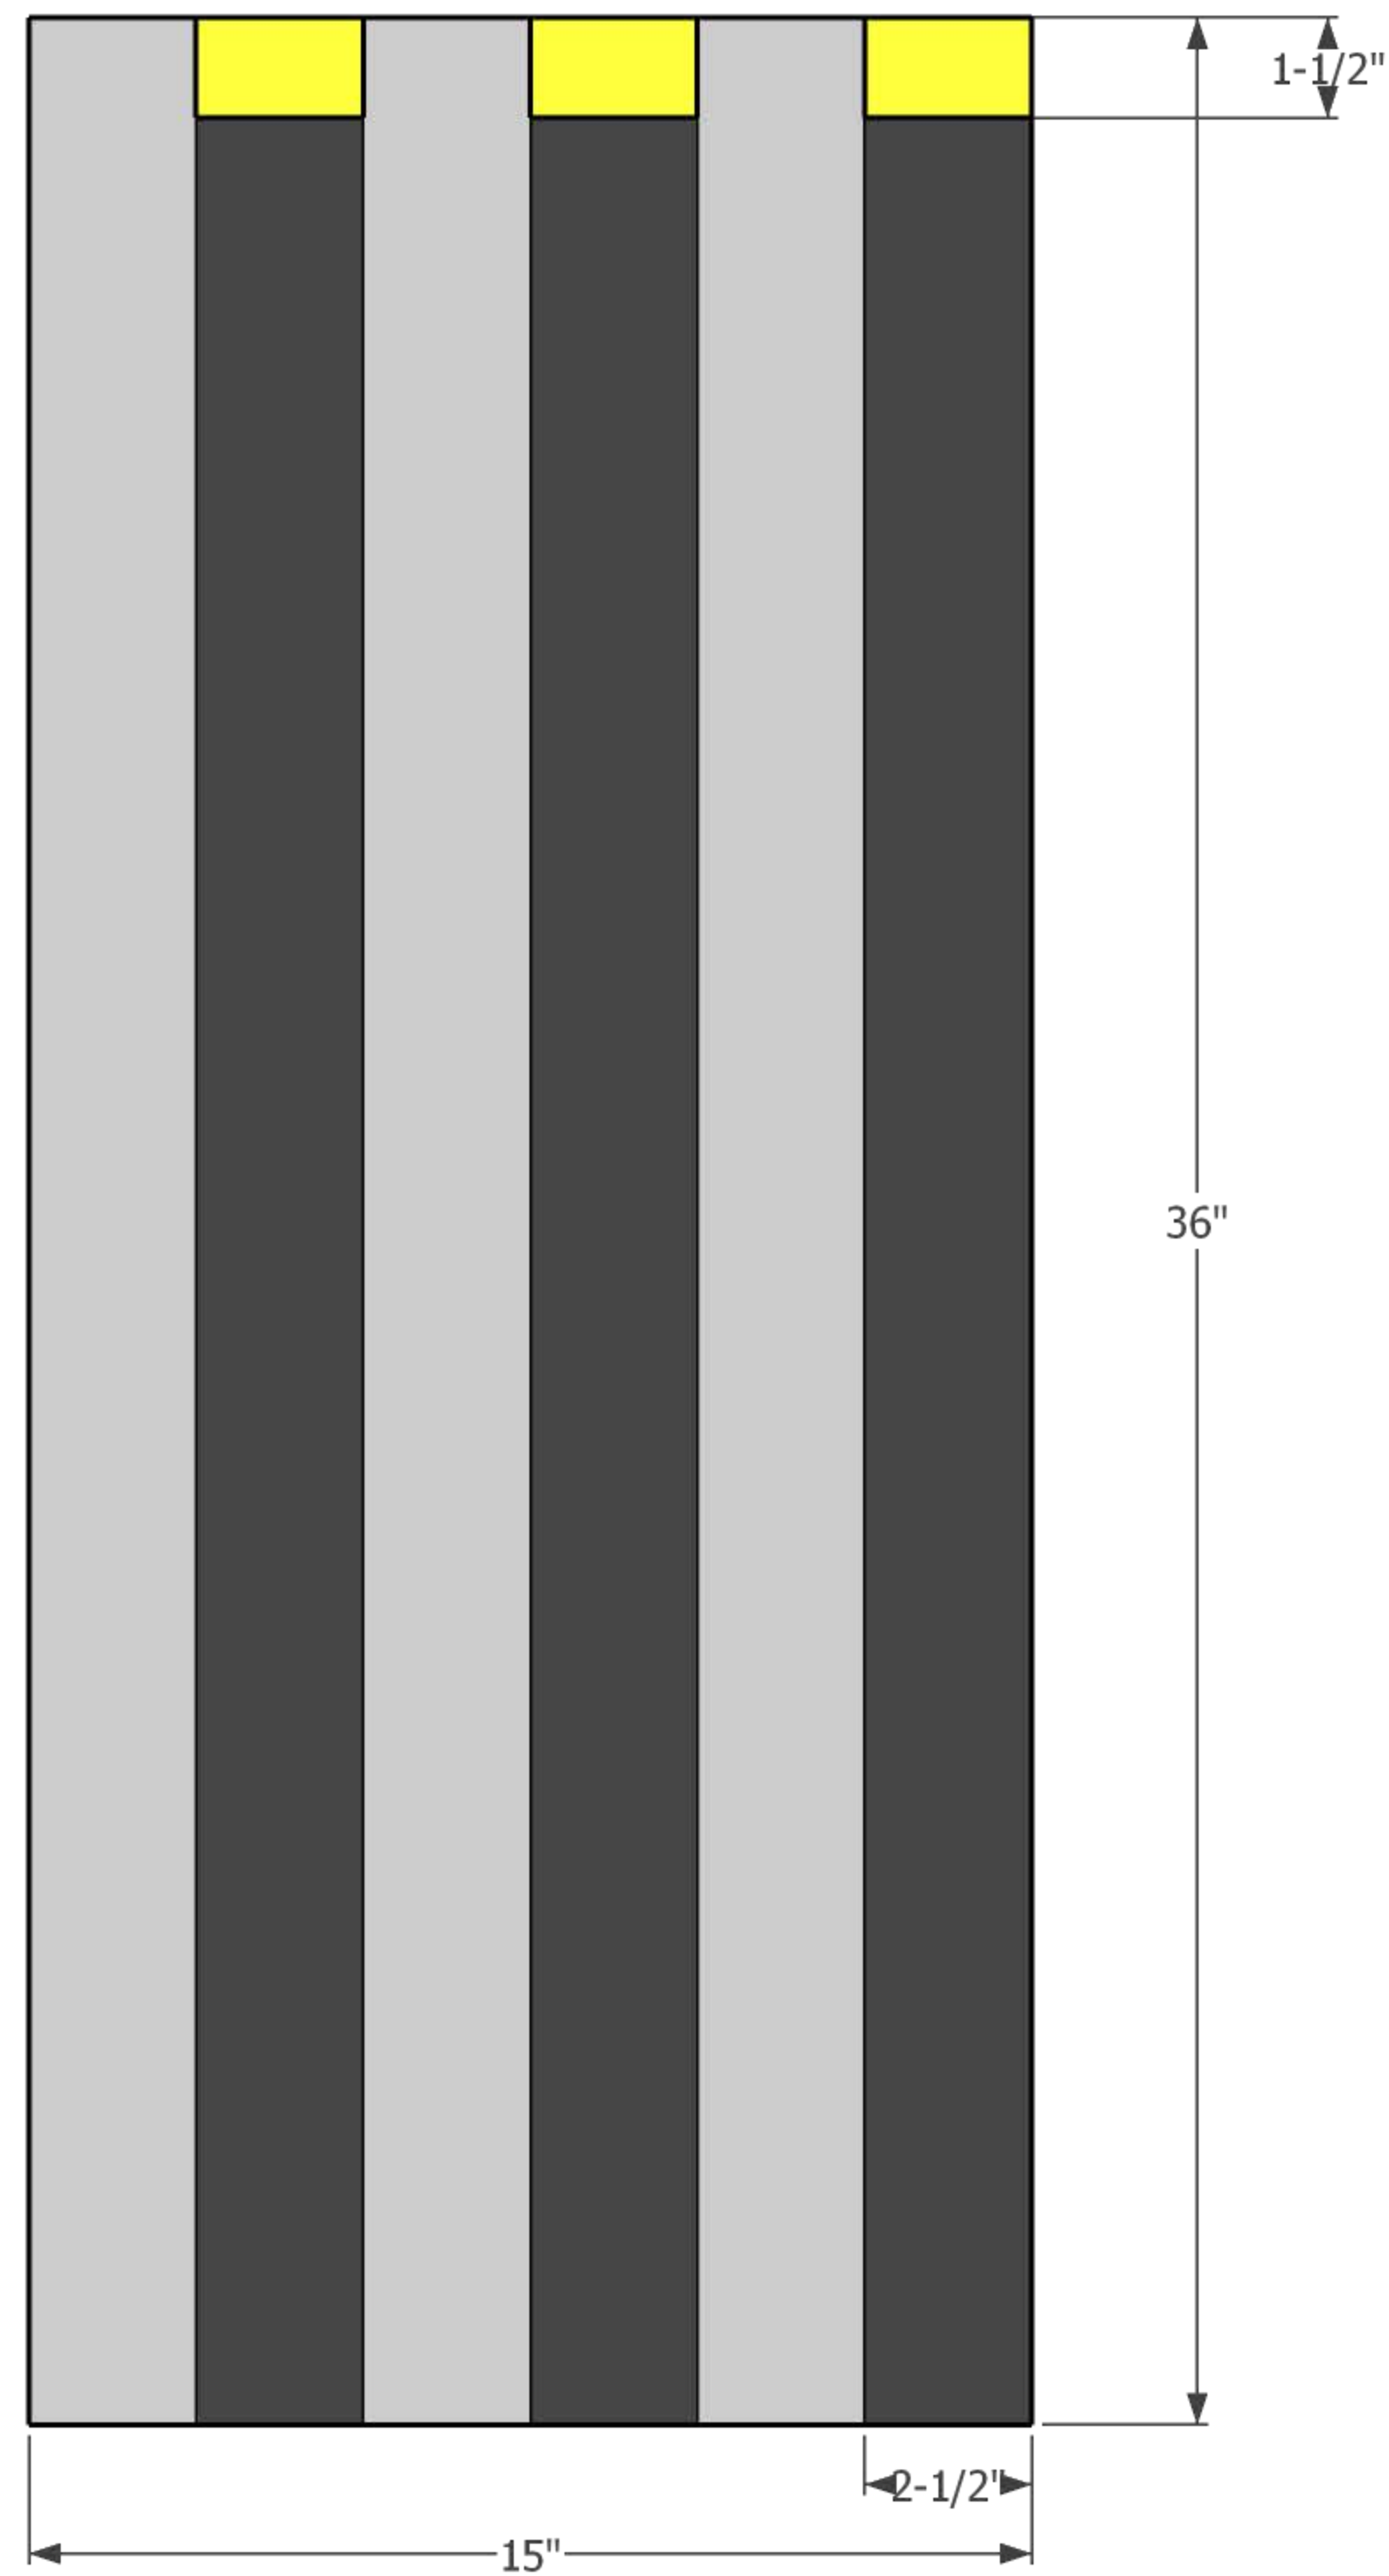

WHAT YOU NEED

- 6 - 2X6
- Table Saw/Miter Saw
- WOOD GLUE
- FINISH OF YOUR CHOICE

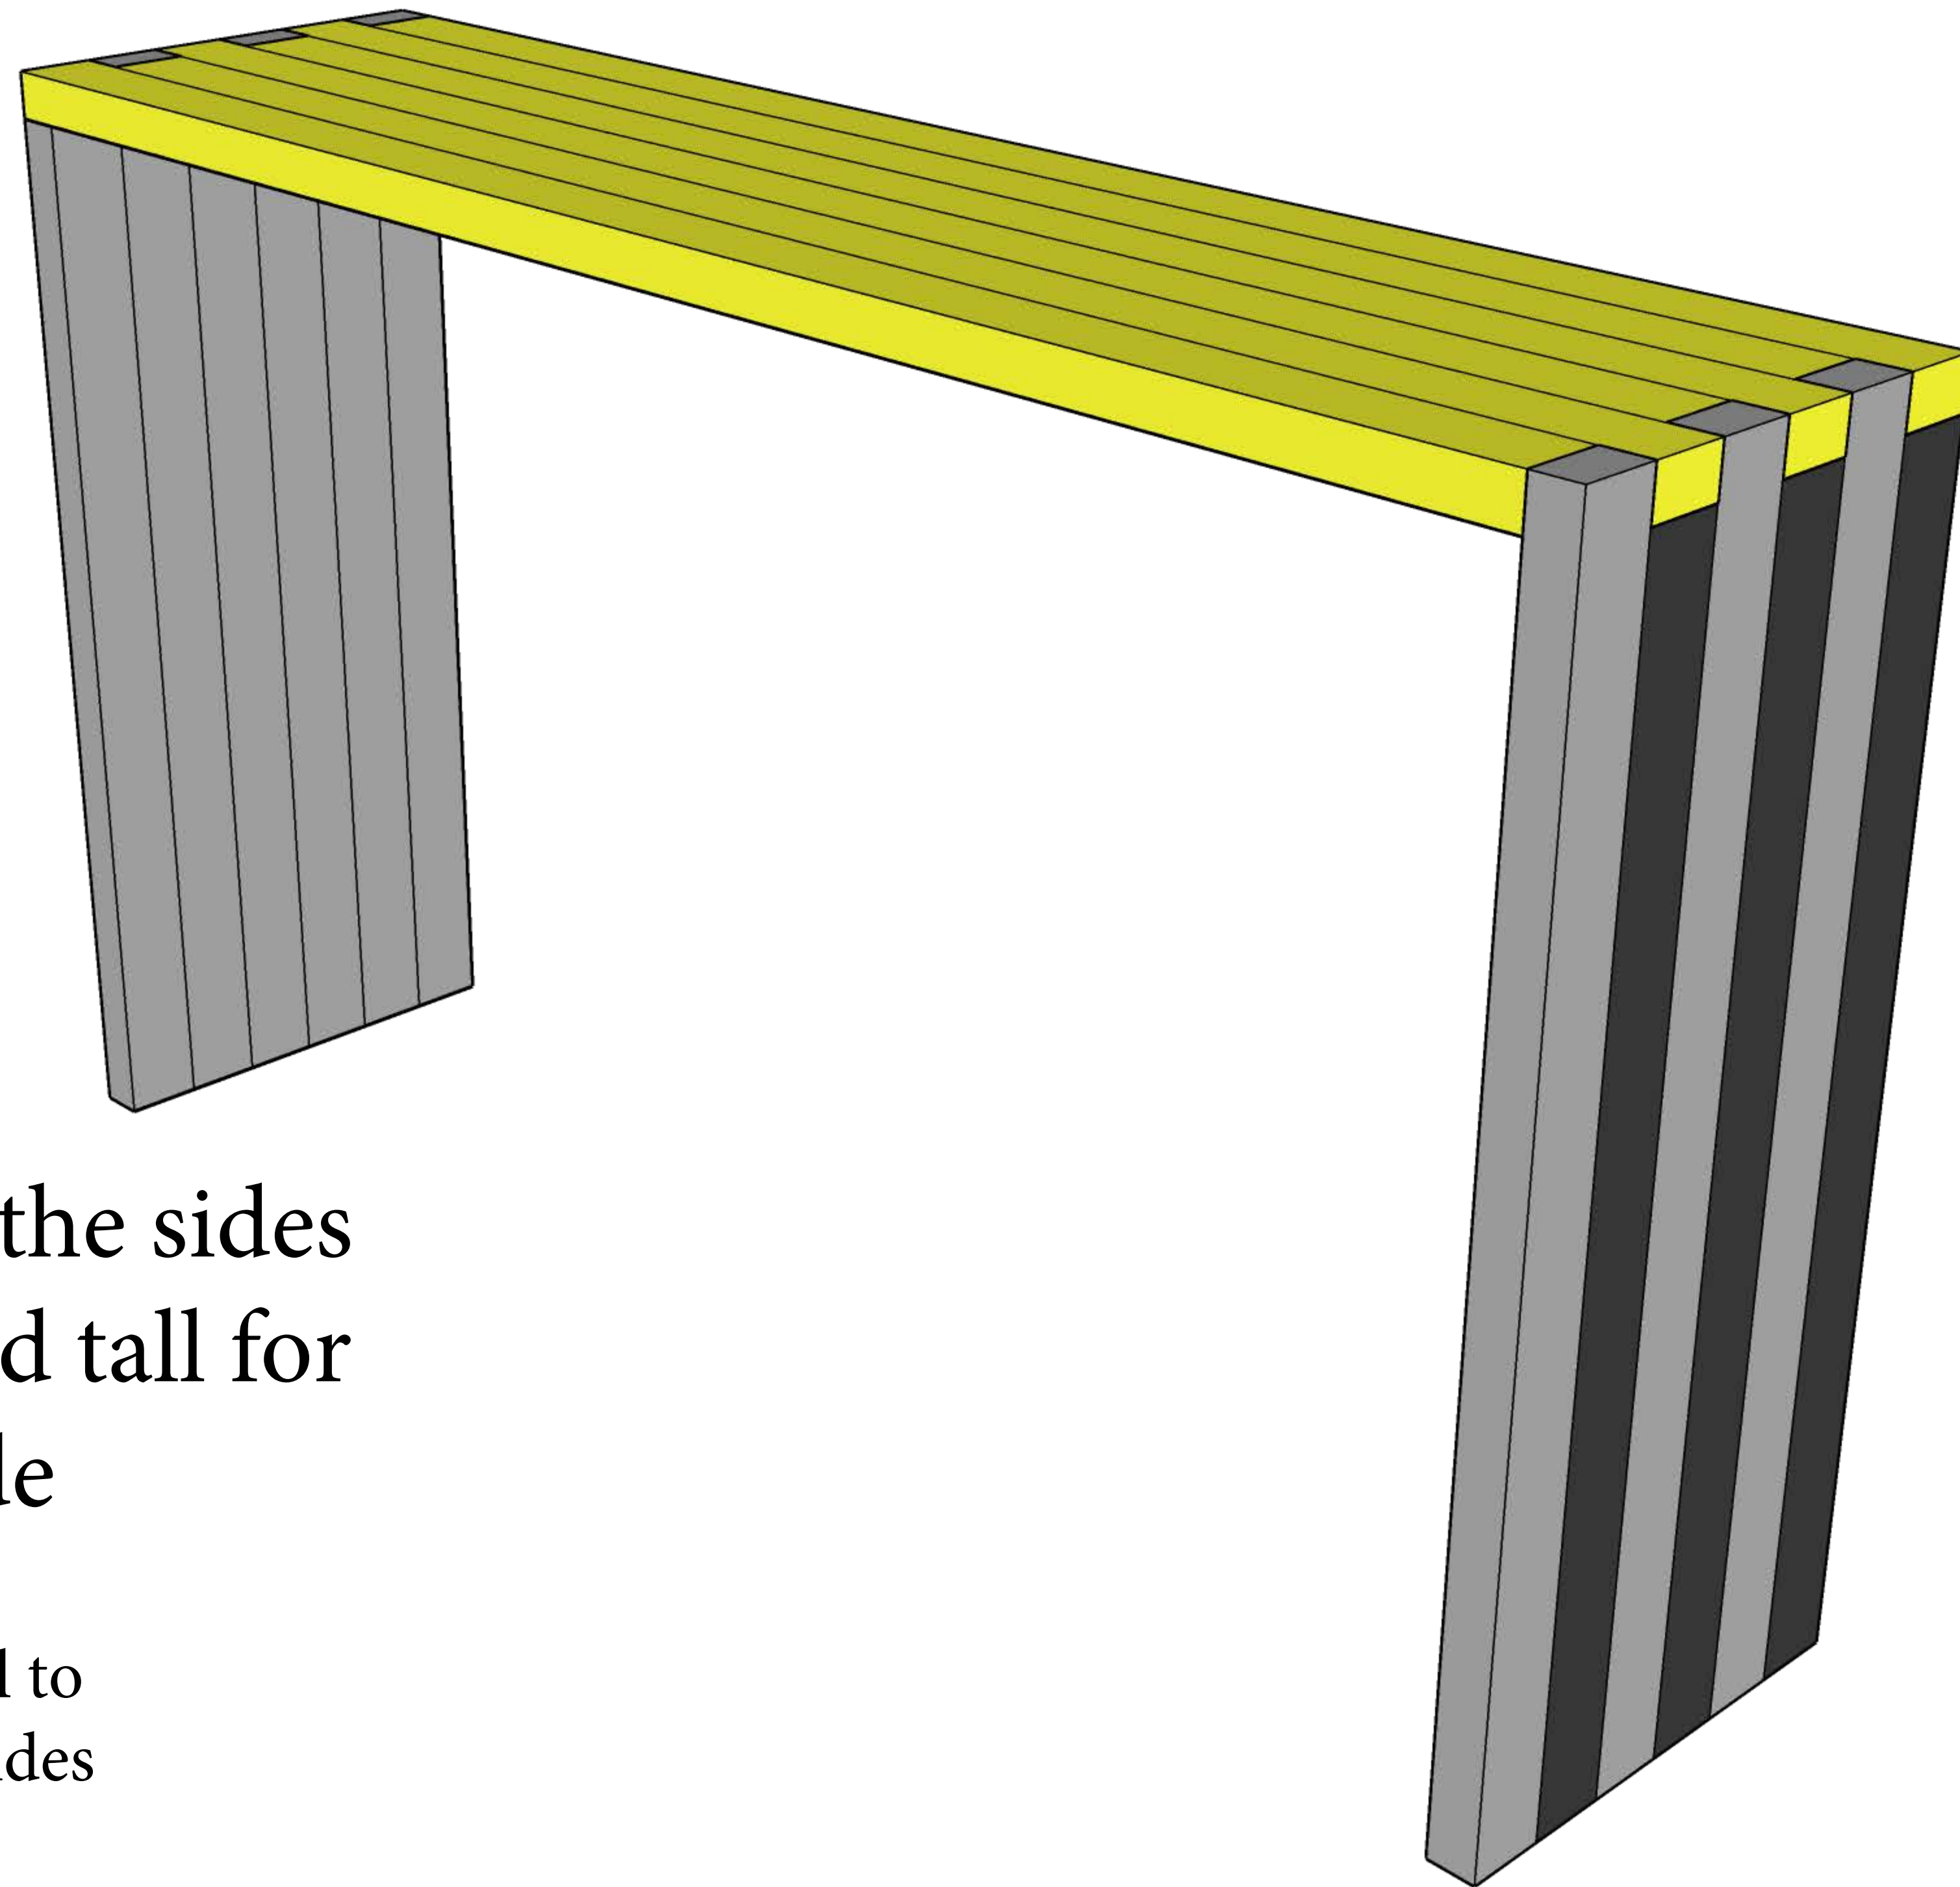

- Cut all of the 2x6's in half
 - this will leave you with 12 - 2.5" x 72" pieces*
- Cut 6 pieces at 58.5 for the top

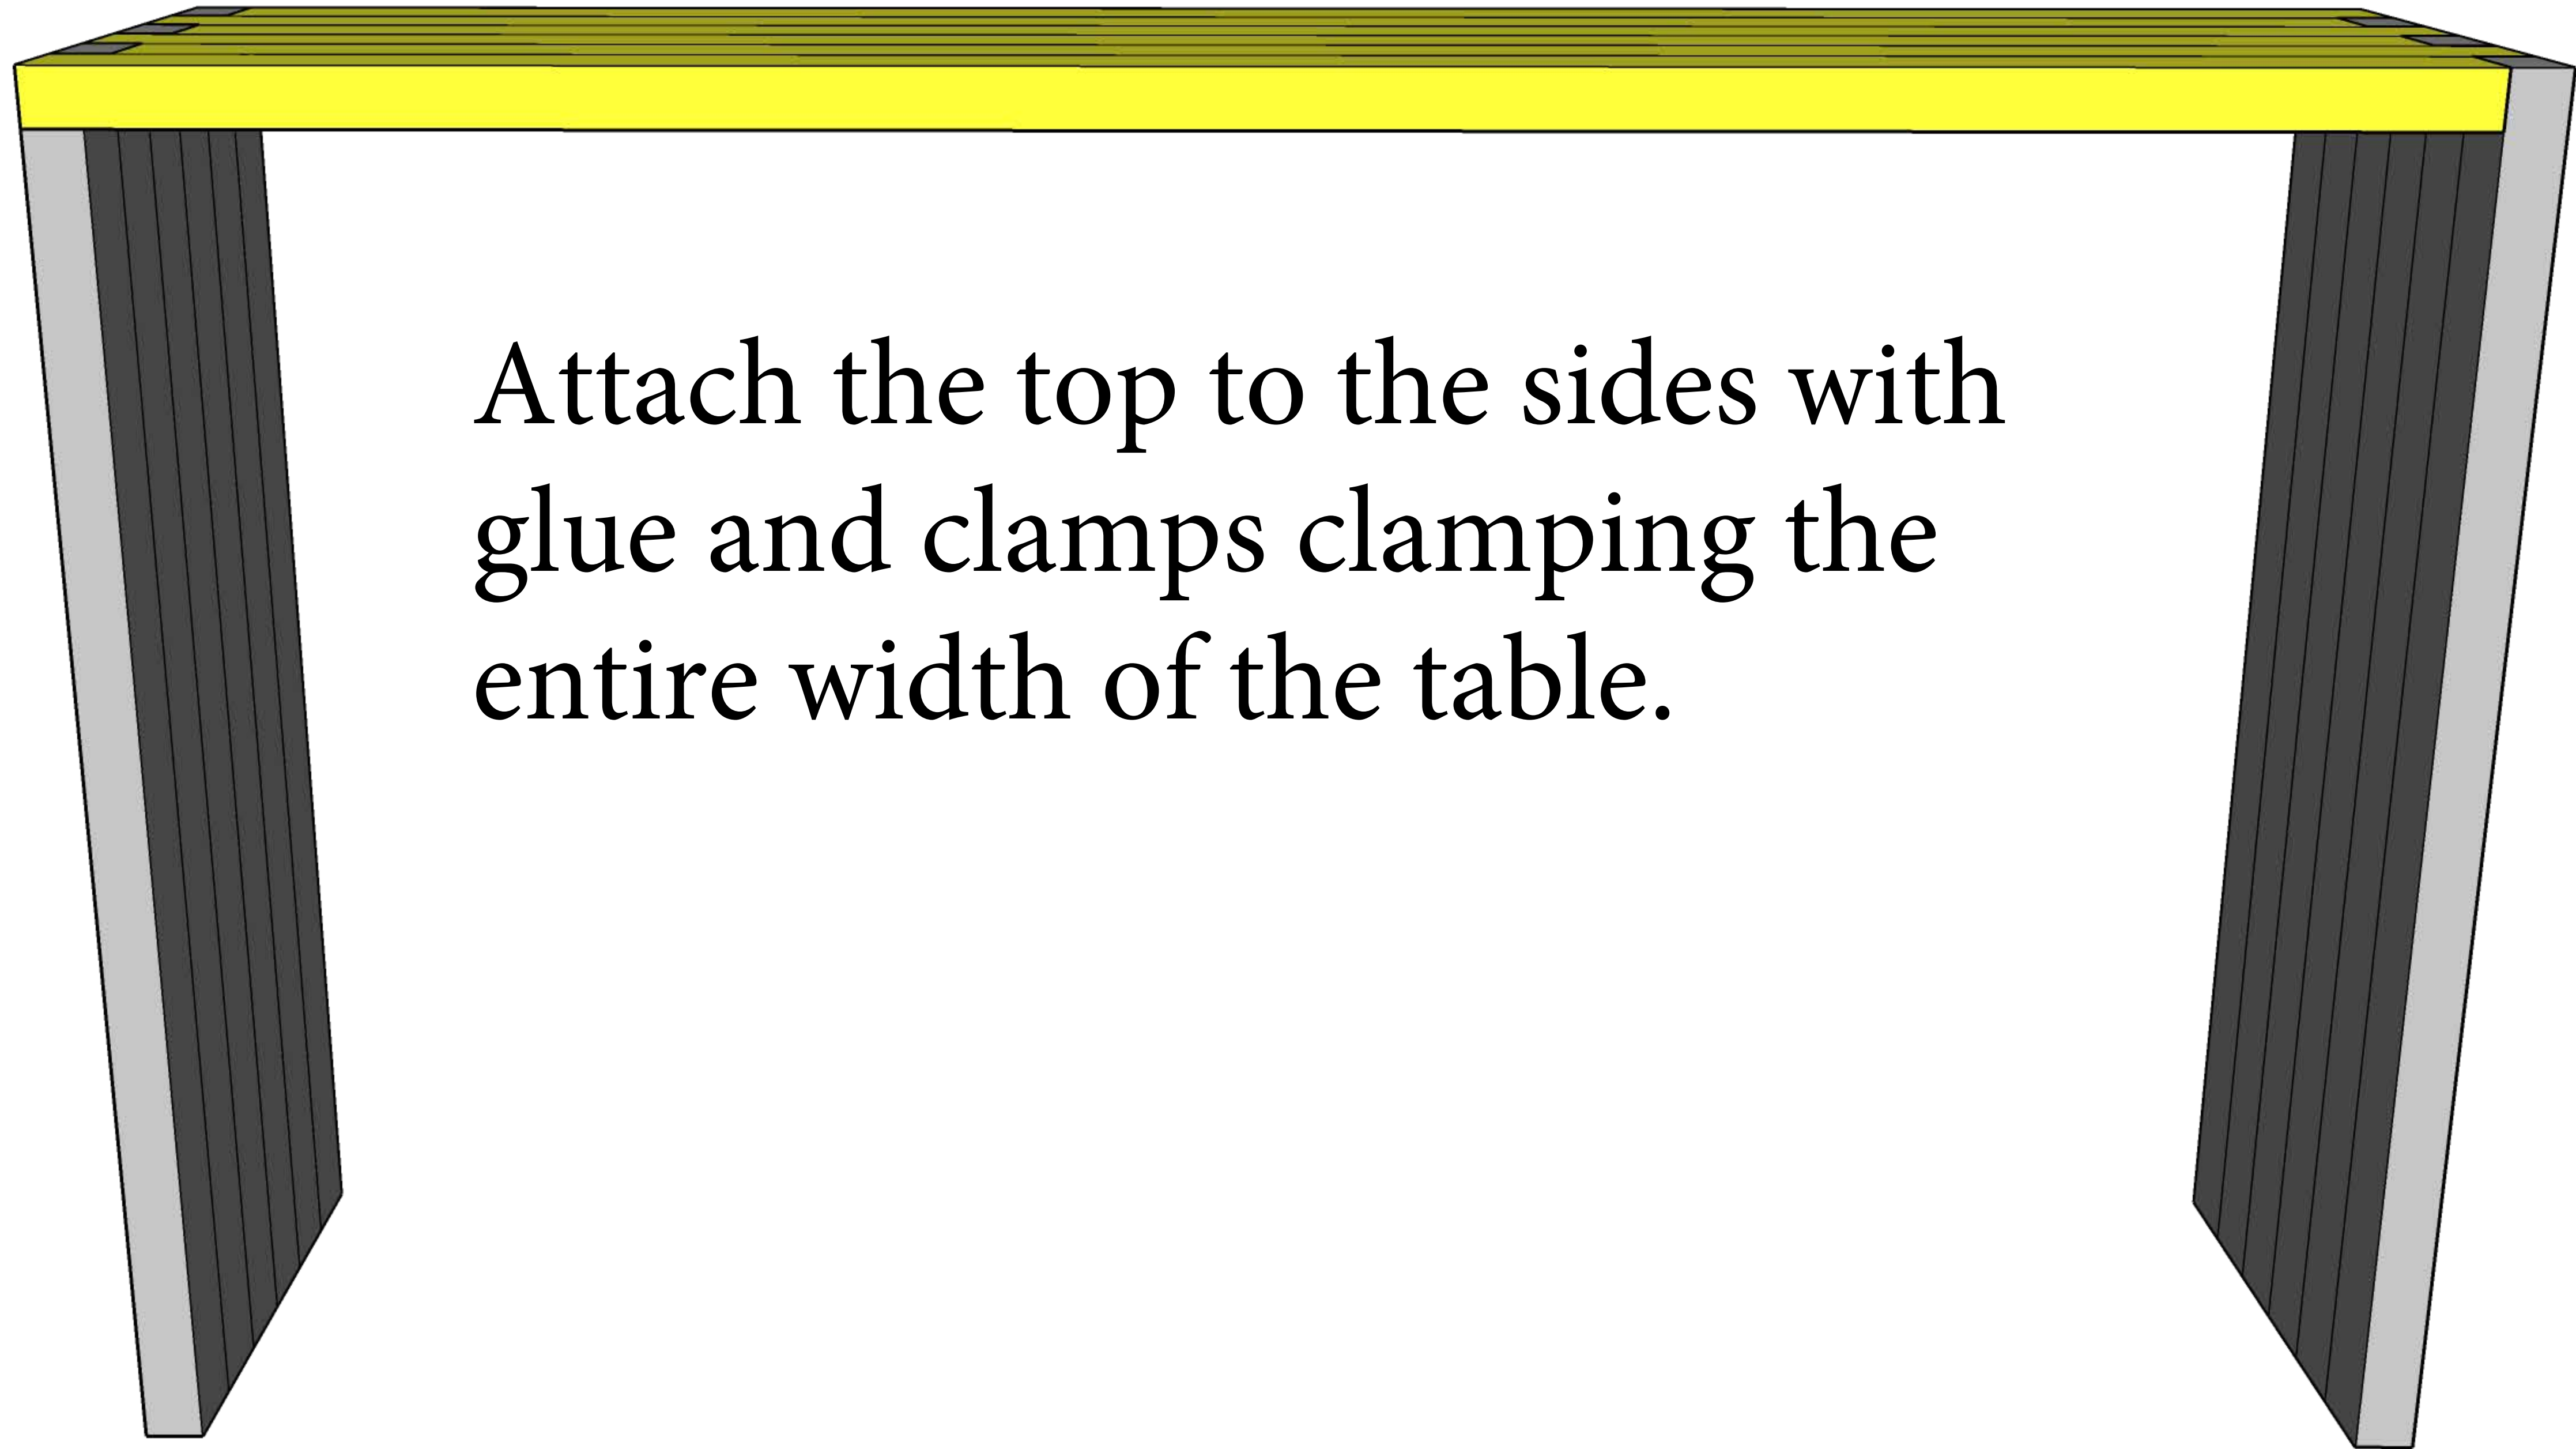

- Cut 6 pieces at 2.5" x 36"
-these will be the light gray pieces
- Cut 6 pieces at 2.5" x 34.5"
-these will be the light gray pieces

Using clamps and glue, glue the sides together alternating short and tall for a total of 6 pieces on each side

Complete the same for the top being careful to match up the long and short ends to your sides

Attach the top to the sides with
glue and clamps clamping the
entire width of the table.

Sand and finish the table as
desired!
